

YOU ARE WHAT MAKES AMERICA GREAT

EVERYONE:

You are what makes America great
You are her future,
You are her fate;
You are what makes America great

You are what makes America strong
You are her morals,
her hope and her song;
You are what makes America strong.

You may not make the headlines,
Not many people do.
And you may not be quoted or be in a "Who's Who,"
But still you are important,
And if you really care,
You can let the world know that you are there.

You are what makes America grow,
You are her muscles, her get up and go,
You are what makes America grow.
